

Wahl Professional Introduces High Precision, Ultra Close Chromini T-Cut Trimmer

Wahl's German T-blade trimmer built to line the neck, sideburns, and hairline.

STERLING, IL (SEPTEMBER 4, 2015)

Wahl Professional is pleased to announce that Europe's best selling trimmer is now available in the U.S.

The Chromini T-Cut by Wahl is now available to American professionals and makes the perfect companion for the ChromStyle Clipper.

This lightweight yet powerful trimmer gets its name from its special German made T-blade.

"The T-blade is ideal for detailing and getting into tight areas," said Laura VanderMoere, Director of Education for Wahl Clipper Corporation. "The blades, while not adjustable, cut extremely crisp."

VanderMoere described the T-blade as "ultra close cutting" and said the blade was ideal for detail and close trimming on the neckline, ears and facial hair.

"The blade is also detachable which makes it easy to clean and maintain," VanderMoere added.

While the T-blade is a defining characteristic, the Chromini T-Cut also features a 100 minute run time and a high speed rotary motor.

"I like the way it rolls in my fingers for versatility," VanderMoere said. "It feels solid, cuts solid. It has power, yet it's not bulky or offensive in your hand. The rotary motor kicks out 6,400 rpm, which makes it perfect for any hair texture."

Simon Shaw, European Artistic Director of Wahl (UK) Limited agrees. “This unique trimmer has super speed and an extra wide T-blade which makes it a great addition to any barber’s or stylist’s kit,” said Shaw. “That’s why the T-Cut is so popular in Europe.”

In addition to its great features, the Chromini is easy to maintain. Just sanitize, oil and charge. With its lightweight feel, powerful motor and precise cutting blades, it is sure to become just as big a hit across the U.S. as it is in Europe.

“This trimmer is a chameleon,” VanderMoere said. “It doesn’t matter what your style or hair texture is. This trimmer just works.”

About Wahl Clipper Corporation
